

## Dear Caregivers and Partners,

Although the COVID-19 pandemic is still ongoing, many organisations including SNTC have adjusted to this new normal and become more prepared for unpredictable times. Our operations have been seamless as we continue to prioritise the health and safety of our caregivers and beneficiaries by bringing our talks and appointments online. This would not have been possible without the strong support from you as we navigate these challenging times.

In this issue, let us present some of our new initiatives during the first half of 2021. Check out our upcoming events to discover what is happening next too!

If you know of someone who can benefit from our e-newsletter, feel free to forward this and spread the message. We also welcome any feedback or comments via [enquiries@sntc.org.sg](mailto:enquiries@sntc.org.sg).

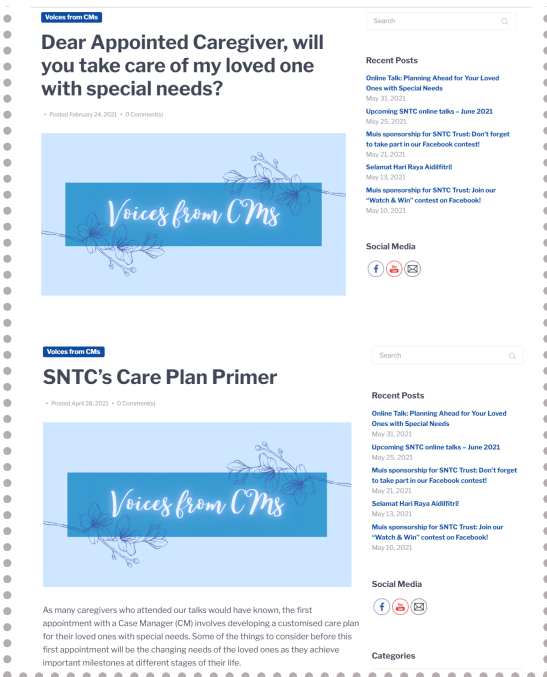

## Voices from CMs

In our previous issue, we introduced our new blog ([www.sntcblog.com](http://www.sntcblog.com)), which serves to keep our caregivers and partners updated on the latest news and happenings at SNTC.

We also started a new blog series “Voices from CMs” where we invite our very own Case Managers (CMs) to contribute an article bimonthly to share deeper insights about issues that are close to their heart, since they have closer interactions with caregivers.

Learn more by reading these 2 articles penned by our CMs for caregivers who are new to SNTC.

*“Please don’t let my aunt know that I called you today, I just hope to understand what I’m getting into before agreeing blindly.....”* [Read more](#)

*“Life is never simple being a parent. Which school will my child go to? What career path will he or she take? Who will they marry? Will they still remember me when I am old, and they have their own families.....”* [Read more](#)

## What's New

Our brochures have a fresh new look! Not only had the design been refreshed, we also revised the content to make it simpler to understand. We are also grateful for our featured caregivers and beneficiaries who were supportive to be part of the photo shoots.

Special thanks to our photographer, Bob Lee for capturing their smiles brilliantly too. Check out our new brochures below:

Bob Lee's *“Finding What's Next”* project features the stories of 12 individuals with autism through a series of photographs, videos and personal effects. It included interviews with parents and sheds light on the daily lives and societal challenges that autistic adults face. The photo exhibition has been extended to 22 August at Esplanade Tunnel. Find out more [here](#).

## New SNTC's Animated Videos

4 new videos have been added to our series of short animated videos! Since last year, we created short animated videos as additional resources for caregivers to have a quick overview of SNTC's services.

Subscribe to our YouTube channel to be notified of new videos in future:

<http://bit.ly/SNTCyoutube>

SNTC will be holding Facebook contests on our animated videos in August and November. Stand a chance to win \$30 vouchers just by answering a few questions on selected videos. Stay tuned!
